

## Pontoon Tube Cradle with Load Guide Kit

The 14' L x 4' W double UltraBunk cradle and load guide combination allows you to safely guide the boat on the lift in rough water without damage and provides the ultimate support. The unique kit is designed to work well on both triple tube Tritoons and standard pontoons with tubes up to 29".

**Fits 3000 to 6000 lb. aluminum vertical lifts with aluminum or steel cradles!**

16" high Load guides are positioned perfectly to contact the pontoon tubes, not the deck.

Maintenance and corrosion free poly/aluminum UltraBunks are ultra-durable, ultra-strong, yet flexible. No wood to rot, not carpet to tear!

Corrosion resistant painted aluminum brackets will withstand the elements.

Stainless Steel/Brass Fasteners provide superior environmental endurance.

### HA0132 Bundles

BUNDLE #	QTY	DESCRIPTION
